## CORONER'S JURY INDICT SHEPHERD AND WIFE

### HELD FOR MURDER OF BOY WARD AND ALSO HIS MOTHER

**Upheld Recent Action Of Grand Jury Who Indicted Both Shepherd And Faiman—Wife Now Ordered Held As Accessory—Olson Delivers A Scathing Denunciation**

CHICAGO, May 5. (AP)—The coroner's jury investigating the death of William N. McClintock, millionaire orphan who died in the action of the grand jury which indicted William D. Shepherd, McClintock's foster father, for his murder and also recommended that Mrs. William D. Shepherd be held to the grand jury as an accessory to the murder.

The jury also recommended that Shepherd be held to the grand jury on a charge of murder in the death of Mrs. Emma Nelson McClintock, the young millionaire's mother who died 16 years ago and that Mrs. Shepherd be held as an accessory to murder in this death. The jury found that Mrs. McClintock died from mercury poisoning administered by Shepherd.

The coroner's jury also concurred in the action of the grand jury which indicted Charles C. Faiman with Shepherd. Faiman had confessed Shepherd offered him \$100,000 for typhoid germs to give McClintock. Regarding Mrs. Shepherd, the jury said it believed she had "guilty knowledge as to the administration of typhoid germs or other manner causing the death of the deceased."

Harry Menzies, assistant state's attorney who has attended the inquest said a mittimus would be issued for Mrs. Shepherd and she would be taken into custody tomorrow morning.

### SEGREGATION OF NEGRO WOMEN AT MEET DENOUNCED

**Negro Singers Refuse To Give Program—All Walk Out**

WASHINGTON, May 5. (AP)—Delegates attending the convention of the International Council of Women came here today to face a night with a typically American problem, while assembled to hear a program of American unity.

The program, designed to show the development of American unity, included Indian selections by a band of Sioux warriors from South Dakota, negro spirituals of the 1860 period, and modern compositions.

But the negroes did not sing because members of their race included among the delegates to the convention had been segregated in the audience. When the time came for the negroes to make their appearance, Hattie U. Brown, former president of the National Association of Colored Women, appeared on the stage and announced the negro singers would not appear because of discrimination.

Soon afterwards the negroes in the audience left the auditorium practically in a body. Mrs. McLean Bethune, president of the National Association of Colored Women had a signed statement, Miss Brown asserted, from Mrs. Philip North Moore, president of the National Council of Women in the United States which is host to the convention, that there would be no discrimination against negroes. The negro section of tonight's program, she added, will be given tomorrow night in a theater here as it would have been rendered before the convention if members of the race had not been assigned a separate block of seats.

Mrs. Moore made no formal statement to the convention but she was represented later as saying her organization had nothing to do with the segregation of negroes in the audience.

**WOODMEN HOLDING MEET**

Scores of visiting Woodmen, aside from the delegates helped form the lines of march led by bands and high ranking national and state officials of the organization.

Tomorrow's session will be occupied with the election of delegates to the head camp, a dinner for the state of Illinois, and a state consul, clerk and banker.

### LONDON SPEECH OF HOUGHTON IS MUCH DISCUSSED

**Was Timely and Wise Pronouncement, Says Senator Borah**

WASHINGTON, May 5. (AP)—Ambassador Houghton's maiden oratorical effort in London last night, regarded by President Coolidge as a helpful interpretation of American opinion on European questions, also was made widely of the responsibility of the ambassador himself, served by a discussion in official circles in Washington.

There was no attempt to fasten on Mr. Houghton's remarks a construction that would make it apply directly to any particular nation or to any political development in Europe. It was made plain, however, that the American government, to which the ambassador made reference, was understood to be the expansion of American loans to Europe.

The view of President Coolidge, it was said, was that the American government, in that connection, was not to be understood as making reference to the expansion of American loans to Europe.

The only formal statement of the ambassador's official quarter was that of Senator Borah of Idaho, chairman of the senate foreign relations committee.

It was a timely and wise pronouncement, he said.

That is bad, from the American viewpoint. But the American under the German Constitution is more like the French President than the American.

## Letters From Former Residents

Mr. James Barnes, Chairman, Jacksonville Centennial Com., Jacksonville, Illinois.

Dear Sir:

Your kind letter received, and I would surely like to again visit the old home town, and meet with the regular good old time boys, look the town over and see its progress, for I surely have not forgotten good old Jacksonville and its good people.

I regret that circumstances will not permit me to visit the home town again, yet I have a longing for a view of its streets and etc., and should circumstances permit will be with you in the celebration, with you here in Oregon my thoughts will be with the people of Jacksonville.

Wishing the success of your grand undertaking, I am, Respectfully,

William Miller, Oak Grove, Ore.

Mr. James Barnes, Jacksonville, Ill.

Dear Mr. Barnes:

Your most cordial letter has been received with the invitation to visit Jacksonville during this centennial birthday year, and enjoy with others the welcome that is waiting for those whom circumstances have called elsewhere.

Whose hearts warm at the mention of the name of the dear old town whose years of youth are past, and who now claims the honor of her first centennial. I am pleased to be still considered a citizen of Jacksonville although at this distance I may not exercise the rights and privileges of citizenship. I rejoice in the prosperity and forward movement of the place, and read with pride and pleasure all that the Journal records concerning the industries and activities that have come during the three years since I left. In my thoughts Jacksonville is still my home and I have great personal pride in all that pertains to her welfare, therefore I heartily rejoice in the re-election of Mr. Chabrier, for another term and do congratulate Jacksonville that she has such "fine men and true" for they have been tried and not found wanting.

In September of 1900, the R. S. Nelson family of their lot with the citizens of Jacksonville, then the influence of Prof. Zollar of a simple Academy who was at that time field agent for Illinois college. Educational advantages was the incentive and from that day until 1921 Jacksonville was our home. We were not allowed to feel we were strangers, Grace church where we put our letters of membership made us feel at home. We were made welcome in literary circles in College Hill club in patriotic affairs, with the Rev. James Caldwell, Chapter of the D. A. R. and I think with fond remembrance of the kindly interest and thoughtful courtesies of these good people during the entire 21 years. Citizens of that character can only produce a city worth while. My desire to be present some time during the year may not be realized, yet I shall hope it may and now for the personal word you request.

Army life has many attractions, one whose American blood dates back to 1620. The sunrise and sunset gun, reveille and taps, bugle calls during the day, drills and parades from the squad of raw recruits to the formal full regimental, with mounted officers and the fine band of the 26th infantry, all never cease to be interesting. A little later in the season, from one to three airplanes are some times on the parade ground at the same time coming from other fields on army business.

This camp at Plattsburg is most beautifully situated in Champlain Valley with the Green mountains in Vermont and Lake Champlain on the east. The Adirondack mountains and Saranac river on the west. With these mountain ranges on either side there are often wonderful echo effects. Sometimes at night call the echo is so perfect one can hardly tell who from bugle. It is a great privilege to spend one's summers here where climate is perfect, mountain drives beautiful beyond description and lovely Lake Champlain for water trips.

It is certainly a most interesting and inspiring place for a first class American citizen to be, and for those who are lukewarm in their loyalty, something vital must be lacking in their makeup of pulse does not quicken with the thought of so generous a government that furnishes absolutely free such fine training under ideal surroundings.

With best wishes for a wonderful and successful centennial and many of them.

Very sincerely,  
 Harriet A. Nelson, Plattsburg, N. Y.

Ernest Northrup of Meredosien spent Tuesday in the city.

BELIEVES MRS. CARRIE SHOULD BE QUEEN

Jacksonville, Ill.

Editor of Journal:

I had a letter today from the morning's mail suggesting Mrs. Mary Turner Carriel for the Queen of the Centennial when I noticed in the paper the letter of Mr. Rogers who expressed the same idea.

Mrs. Carriel is a daughter of one of the first residents and as a beautifully sweet old lady whose entire life and energy have been given for the interests of Jacksonville, it is to me without question the one to be honored.

The honor would come to her as a just and deserved reward for her life so given. As their Queen Jacksonville could be so proud of her with her sweet, gentle dignity.

It has always been the custom at such celebrations to elect some young girl. But Jacksonville wants to be different, to have a real representative of their type of womanhood as their Queen. No better selection than Mrs. Carriel could be made.

Sincerely yours,  
 Mrs. R. F. Shafer.

QUEEN OF THE PAGEANT

Whom do the people delight to honor? The service beauty of a life well spent? The matron crowned with a glory of white hair after a long life of loyalty to society? The mother? Ah you mean! Do you prize of the modern woman shirking the pains and pleasures of motherhood and fail to honor the mothers who have enriched society by rearing a family of children? Will you set them aside in the interest of youth and beauty? You advertise for young ladies. The writer yields to none in admiration for youth and beauty? To none in his keen enjoyment of their happiness when youth and beauty is crowned by public acclaim. But why toll and pain, self denial and struggle for the best in womanhood if only to be relegated to the obscure past by the society so loyally served?

One there is among us who, however we may vote is Queen. Born here of parentage preaching for back in the early days of Jacksonville: who had the beauty and loveliness of youth as the ambitious devotion of many of the better young men of her day attested, who graced one of the most prominent positions in Jacksonville to which any bride could be called: beautifully performed that most saintly work when well done, to which woman may be called mothering motherless children. That is was well done is attested by stalwart men proud to call her mother. One whose father is recognized as the Father of our State University and who has herself served acceptably as president of our local art society.

As the table goes the beasts of the field assembled to elect a king. As they were discussing the candidates the Lion walked in among them and said: "Elect whom you please, I am King." Elect whom we may, Mrs. Mary Turner Carriel is the fit Queen of

A JACKSONVILLE ADVANTAGE  
(BY ENSLEY MOORE)  
Member Illinois Historical Society

Jacksonville was favored in many ways in its start. To begin with, its projectors had eyes for the future. It was a revelation to the state physically to find from there a good idea of how nature looked "unadorned," which at that time it was hard to beat.

The Kelloggs came from the beautiful scenes of New York state.

Southerners came from parts of their section.

So it was not hard for anyone to admire and choose our advantages in our beautifully decorated woods.

Mr. Edlis went back and described this as the most beautiful sight and neighborhood he had ever seen, and those who followed him agreed with his views, so that Jacksonville had nothing to do but grow and be beautiful like a fair maiden. There were farmers who did not enjoy the chosen land. It was easy for people to move into the garden state and to stay here. Women of taste also not only bred but specially directed at once were captured by the breadth of our prairies and the depth of our woods. Men could see our farms, expansive as the

## CORONER'S JURY INDICT SHEPHERD AND WIFE

(Continued From Page 1.)

clashed part of his general scheme when she was made ill there and returned to Chicago to die.

"But even 16 years could not hold back the truth," he shouted. "While in this town Shepherd made a remark to an acquaintance there 'don't worry, little Willie will tell his pockets before he is gone.' Olson said, 'Billy had more than a million dollars but he was forced to borrow a dollar from a friendly barber even when he had nearly attained the age which he would assume control of his inheritance.'"

While characterizing Shepherd as a scoundrel and Mrs. Shepherd as a "Lady Macbeth," Judge Olson told the jury that young McClinton and Miss Isabelle Pope, the fiancée who waited to wed him when he died last December, were a true Romeo and Juliet who would be happily married now if only Shepherd and Mrs. Shepherd had let them alone.

Compare Types

Again discussing the Shepherd-Judge Olson showed:

"You have here a masculine-looking woman, a feminine-looking masculine man. These folks are the complements of each other. They are well matched, these folks. She is strong, firm, and purposeful. He is soft and weak-willed. The evidence shows he hasn't accomplished anything in the 40 years of his life."

Young McClinton died last December while Mrs. Pope waited to marry him. His will, drawn by Shepherd and witnessed by servants in the Shepherd home, left his estate to Shepherd except for an annuity of \$5,000 for Mrs. Pope.

Three weeks after his death his body was examined at Judge Olson's request. An examination showed that he had died of typhoid fever. After many weeks of investigation Charles C. Faiman, proprietor of a Scientific School was arrested and admitted that Shepherd had offered him \$100,000 for typhoid germs to be given to his young ward, Shepherd and Faiman were indicted.

Faiman is still in custody of the state's attorney while Shepherd went to jail after carrying his unavailing fight for release on bond to the supreme court.

After his indictment Judge Olson demanded the exhumation of the bodies of Mrs. McClinton and Doctor Olson. Motions were made in Mrs. McClinton's body that no poison except that probably administered medicinally was found in the body of Dr. Olson. The McClinton family physician, Judge Olson has charged that his brother was poisoned by some means which would leave no trace.

Robert M. Stoll, Mrs. Shepherd's attorney said he would surrender his client in the morning.

Mr. Stoll said that as soon as she surrenders an immediate attempt will be made to effect her release on bonds, despite the fact that attorneys were unable to bring about the release of her husband.

Mr. and Mrs. Alan Russell entertained Mrs. Russell's father, Thomas Irlam, Mrs. Russell's brother, Charles Irlam and family from Midway and Mr. Russell's mother, Mrs. W. C. Russell from Woodson at dinner Sunday.

**CHRISTY BROS. SHOW COMING TODAY**  
The menagerie of Christy Bros. featured wild animal show that is presented this year is one of interest and study for the lovers of both wild and domestic animals. It is an important department with a variety of birds and other, not only features of interest and wonder, but recommends itself prominently as a superior source of study and information.

In point of size as well as in rare and exclusive features it is a good comparison with any other wild animal collection in the United States. It possesses many rare specimens of animal life not to be seen in any other collection, that it is one of the most distinctive and valuable menageries in the world and will be seen in its entirety when Christy Bros. exhibit in Jacksonville today.

All of the animals are trained to do something out of the ordinary. A troupe of six performing Elk is a newly added feature. For the first time two big collections of wolves have been made to perform. This is the first time these animals have ever been educated. Two different collections of black bears are a newly added number. Three big groups of lions are introduced at different times and a big mixed collection of tigers, leopards, lions, with two dogs and a cat is a remarkable scene. Elephants are also performing new stunts and all kinds of domestic animals do something that attracts attention. Dogs, goats, sheep, rabbits, cats, rats, horses, ponies and in fact every animal that can be collected is made to perform.

Replying to a correspondent, who  
asks if it is correct to wear spats in  
mid-summer, it isn't advisable, un-  
less a man be dressed for a wedding  
or for some function tinged with  
ceremony. Spats belong to spring,  
autumn and winter and only to town  
dress. A good looking pair of spats  
is an affair of headwork, rather than  
footwork. Above all, one should be  
mindful that a spat must fit, that is,  
it must cleave snugly to the angle  
and instep, instead of yawning like  
the Grand Canyon of Arizona. Most  
spats gape most impudently, when  
they should appear to be one and indivisible  
with the shoe. The spat or garter, as it is dubbed in England, has an ancestry as long  
as, but more honorable than, a Bolshevik's whiskers. First de-  
signed to give the ankles of huntmen protection from briar  
and brambles, it has developed into an engaging decoration, though only  
worn in the larger centres.

To step from spats, which only interest the few, to shoes, which  
all must wear, always choose them for the particular purpose and  
place for which they are intended. There is no incoherent style  
about shoes than about anything men wear. You see sporting shoes  
in town and walking shoes at sports. You see heavy-weight, thick-  
soled brogues worn far away from their proper sphere. Shoes carry  
just as fine and fashionable distinctions in type as any other ap-  
pearance of dress.

Divide the summer shoes you require into two general classes—  
town styles and country styles. Own at least three pairs of each  
and do not wear the one where the other is prescribed. Decorative  
white buckskin shoes, as shown here, are proper enough for country  
and knockabout, but they are incorrect for golf or tennis, which  
demand plain, practical models. Seasoned sportsmen have shoes to  
lounge in and shoes to play in. The two types are kept strictly  
apart.

The care of your shoes is most important to preserve their life  
and looks. Always treat them after taking off. If your feet  
perspire, occasionally shake powder into your shoes to neutralize  
excessive moisture. Now and then, oil or grease your sporting shoes  
so that they will not become stiff or harsh. Do not put them near  
a heater or in the blazing sun. That dries the natural oil in the  
leather which can never be restored. Take shoes seriously, treat  
them kindly and they will reward you richly in greater comfort and  
longer wear.

**RUTH DENIES HE IS  
THRU AS PLAYER**

Worries Over Yankees Losing  
While He Is Sick—Says When  
He Gets Back He Will Deliver  
Plenty of Homers.

NEW YORK, May 5. (AP)—  
"Babe" Ruth today went to bat  
verbally against a report that he  
is "thru" as a major league base-  
ball star. Propped up by pillows  
in his bed at the hospital where  
for more than three weeks he has  
been recovering from indigestion  
and influenza, Ruth declared the  
statement was "bunk, pure and  
simple, because I and still at my  
best."

The home run champion said he  
felt that he was having the most  
trying experience of his life. He  
was obliged to remain in a bed  
while the Yankees were losing bat-  
tles inflicted on him a greater  
hardship, he said than any other  
misfortune he could visualize.

Ruth declared he had no inten-  
tion of going to his farm in Bri-  
dley, Mass., to recuperate after  
leaving the hospital. He admitted  
losing 25 pounds since his removal  
to the institution.

"As soon as I can work out in  
the sunshine with the Yankees,  
I'll get back the weight I've lost  
and you can look for me to hit  
plenty of homers during the re-  
mainder of the season," he con-  
cluded.

Albert Knoppler of Bluffs  
spent Tuesday as a business call-  
er in Jacksonville.

**SID TERRIS WINS LAST  
MADISON SQUARE FIGHT**

Is Given Decision Over Johnny  
Dundee Which Starts Uprow  
Among Fans—Terris Has  
Early Lead.

NEW YORK, May 5.—Sid Ter-  
ris, New York lightweight, out-  
pointed Johnny Dundee, former  
featherweight champion, tonight  
in a 12 round bout, the last box-  
ing contest in the Old Madison  
Square Garden.

The decision started an uproar  
in the ancient structure for the  
veteran American-American had  
fought brilliantly a crafty, dog-  
ging, defense offsetting the extra-  
ordinary speed of the New York-  
er. Terris led easily through the  
first four rounds by his lightning  
scoring repeatedly to the head.  
Then Dundee, hero of 400 ring  
battles became the vicious an-  
tagonist of old, plunging from the  
ropes to attack Terris.

In the twelfth and last round  
Terris employed a speed that ap-  
parently baffled Dundee, but the  
New York man's blows failed to  
land. More than 13,000 persons  
saw the last battle in an arena  
which has seen champions made  
for forty years. In the semi-final  
Ladie Shea of Chicago scored a  
technical knockout over Jack  
Snyder of Brooklyn in ten  
rounds.

END LOSING STREAK**

NEW YORK, May 5.—The  
Yankees finally ended their los-  
ing streak which had stretched to  
five straight games when Pen-  
nock pitched them to a 8 to 4  
victory over the Philadelphia  
Athletics today.

**NEW YORK, May 5.**—Stock  
prices developed an unexpected  
burst of strength and activity to-  
day on buying influenced by re-  
ports of pig iron and gasoline  
prices, continuance of easy money  
rates, and the establishment of  
new high records for the British,  
Norwegian and Danish exchange.  
Speculative interests centered  
largely in the rails, oils, cottons  
and public utilities, several of  
which attained 1925 peak prices.  
Peach weakness cropped out in  
the American Woolens on rumors  
the preferred dividend was in  
danger, the common falling back  
two points to 36 and the preferred  
breaking six points to a new low  
at 70 1/2. Butte & Superior sagged  
23 points to a new low at 62 1/2,  
compared with a high of 24 1/2  
a few months ago. Heavy profit-  
taking in American Can resulted in  
a net loss of more than one  
point on the day at 182.  
Public utilities continued to pre-  
sent points of strength.

Stocks in which favorable de-  
velopments are believed to be  
continued the favorites in the  
rail group.  
Steel shares pointed upward  
but buying was restricted by the  
expectation of another large de-  
crease in the April unfilled or-  
ders of the U. S. Steel corporation  
which will be made public on  
Saturday.

U. S. Steel common closed 1/2  
higher at 113 1/2, while rail stocks,  
Republic and Ludlum showed net  
advances of a point or more.

Some of the outstanding strong  
spots included American Brake  
Shoe, American Car & Foundry,  
American Foreign Power, Associ-  
ated Dry Goods, Central Leather  
Co., Cushman Bakery, Free-  
port, Texas, Montana Power, Na-  
tional Cloak & Suit, Pullman,  
United Cigar and Ward Baking B.  
all up two to four points.

Call money renewed at 3 1/2 and  
then dropped to 3 1/4. Time money  
and commercial paper rates were  
unchanged.

## The Home Follows the Automobile, Which Follows Oil

The petroleum industry is a vital factor in upbuilding the home.

Statistics prove that the states which lead in the number of motor cars per 1000 population have the highest percentage of homes owned. Since the home follows the automobile, it follows that the motor car follows oil.

The home follows the automobile, and the automobile follows the oil. The distribution of gasoline and oil at prices which all can afford to pay.

The low price of gasoline and oil which makes the universal use of the automobile possible is due solely to the intensive scientific work of the petroleum industry.

The Standard Oil Company (Indiana) by the application of modern refinery processes has taken a leading part in creating enormous additional percentages of refined oil from crude. In addition, it has put into operation the first modern, and the most complete, system for distribution of oil products.

A few years ago the horse and buggy was the mark of affluence. Only the well-to-do felt able to enjoy such luxury. Today, hundreds of thousands of people go to and from their work in a motor car. Motor vehicles carry 280,000 children to school every day of the school year.

Home owning is nation building. Growing industrial cities once thronged with poor, crowded tenements, and the homes of the American families to the suburbs. The production of refined oil, and the achievement which, by making automotive transportation at low cost possible, have every worker the opportunity to live 20 miles or more between home and job, and enabled him to bring up his children where the air is fresh and the grass is green.

Standard Oil Company (Indiana) service pays oil at the disposal of every motorist in the Middle West. In perfecting this service, this Company has contributed to the upbuilding of thousands upon thousands of happy American homes.

The Standard Oil Company (Indiana) is proud of its part in such constructive work. It is by such achievement that this company obtains enduring success.

## OLD WOODEN VISE TO BE DISPLAYED

There is a relic on the farm of Leslie Lewis in the Point neighborhood which will certainly find a place in the display of interesting heirlooms of a bygone day. It is a wooden vise which is supposed to have been in use more than a century. The vise belonged to George Hills, who died about sixty years ago. Since his death it has been on the old farm and is still in good condition. Mr. Hills was the grandfather of Dr. C. E. Scott, who discovered the relic recently while visiting Mr. Lewis. Dr. Scott expects to bring the vise here and turn it over to the historic relics committee for display.

Received a car load of Packards today and delivered them. So of course I have some real good buys in used cars to offer: 1—1923 Dodge touring, sure a dandy. 1—1922 Dodge Coupe, good. 1—Hudson Super Six touring. Several others at right prices L. E. DEPPE 216 South Mauvaisterre St. Phone 1055, 1363.

MAN HAS MIRACULOUS ESCAPE It was told by our family physician that I could not live without an operation, as my liver and gall were in such a condition. I set the day to go to the hospital, but then I saw the advertisement of Dr. Williams' Pink Pills. Since taking it I am sure I never could have survived an operation. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. At all druggists.

GET AT THE CAUSE! Many Jacksonville Folks Are Showing How to Avoid Needless Suffering.

There's nothing more annoying than kidney weakness or inability to properly control the kidney secretions. Night and day alike, the sufferer is tormented and what with the burning and scalding, the constant backache, headache and dizzy life is indeed a burden. Doan's Pills—a standard cure for the kidneys—have brought peace and comfort to many Jacksonville people. Profit by this Jacksonville resident's experience:

E. J. Farara, owner of restaurant, 205 E. College St., says: "A cold put my kidneys in bad shape, and I had dull, bearing down pains in the small of my back. My work was difficult for when I bent over the pains were intense. I was tired and worn out. Dizzy spells came on, too. I used Doan's Pills and they fixed me up in fine shape." 60c. at all dealers.
